PREFACE

The following bibliography is the fifth supplement to the Annotated Bibliography of Multi-Ethnic Curriculum Materials and represents the materials collected by the Midwest Center for Equal Educational Opportunity since the publication of the original volume in the fall of 1974, and the first four supplements from 1974-1976.

This supplement includes books, films, filmstrips, recordings, and booklets available for temporary use at no cost, except for return postage, through the Midwest Center for Equal Educational Opportunity (MCEEO), Columbia, Missouri.

HOW TO USE THE BIBLIOGRAPHY

Included in each entry are the following items: name of author, editor, or compiler, title, publisher, purchase price, source reference number, description of material, level of use.

For the sake of convenience, we have included at the back of the bibliography a numbered list of names and addresses of the sources where materials may be purchased. Numbers on this list correspond to the source reference numbers immediately to the right of purchase prices given with each entry. All purchase inquiries should be directed to the appropriate address(es) from this list.

Levels of use are indicated by lower case characters for areas of possible use and by upper case characters for areas of most effective use. For example, "junior high" indicates a possible level of use, while "JUNIOR HIGH" indicates a definite level of use.

HOW TO BORROW MATERIALS LISTED

All requests for temporary use of materials included in this bibliography should be directed to the address below. Please indicate first and second choices and dates of use. Because of high demand for films, the lending period for films will be three (3) days. It is therefore necessary that the showing date be established at least three weeks in advance of the order. All other materials may be kept two (2) weeks. If additional time is desired for materials other than films at the end of the two-week period, an extension may be requested. Any intervening request for the material from another person or group will have preference, however.

MCEEO will pay one-way postage and insurance only. Return postage and insurance must be paid by the borrower. Materials may be returned to MCEEO through the library mail rate. Insurance is required in addition to postage rates.

Because MCEEO's Resource Center is continually growing and looking for new sources of materials, we would appreciate being informed of any materials not included here which would be important additions. Please share your knowledge with us. The bibliography is revised semi-annually.

Printing costs prohibit MCEEO from making numerous copies of this bibliography available, so please feel free to duplicate it. We encourage its wide distribution.

Requests for materials may be directed to:

Hall, Edward T.
The Silent Language

1959, Doubleday/Anchor Book $1.95 #320

Written to spark the interest of the lay reader in the silent communication of manners and behavior. Hall believes Americans, for the most part, are ignorant of what they communicate to other people by their normal behavior and that there is a need for us to develop an understanding of cross-cultural communication so we will stop alienating people with whom we are trying to work, at home and abroad. U.S. Representatives to foreign countries need formal training to understand the language and culture of the country in which they serve, but need, also, to assess the non-verbal language of that country. Hall states that culture is communication and communication is culture. This book is documented from the late 1940's through the late 1950's.

Teaching A Second Language: Sentence Length and Syntax

1973, NCTE $2.50 #116

This study is #14 in a series of research reports sponsored by the National Council of Teachers of English. The purpose was to determine the effect of sentence length and syntactic structure on the repeatability of sentences in an effort to discover whether native or non-native speakers of English encountered similar difficulties in repeating sentences. The Study revealed that there is interaction between repetition difficulty due to sentence length and repetition difficulty due to sentence patterns and types of sentence expansions. Foreign students had proportionately more difficulty repeating sentences with patterns which included a prepositional phrase. It was found that the length of the sentencewas a critical issue. The number of adjuncts should be limited at each stage as should the length of adjectival and adverbial clauses. The book is useful as a guide to assist language teachers and materials writers in constructing drill sentences.
